## WARNING

TO REDUCE THE RISK OF FIRE OR ELECTRIC SHOCK, DO NOT SUPPOSE THIS APPLIANCE TO RAIN OR MOISTURE

## IMPORTANT SAFETY INSTRUCTIONS

Read instructions - All safety and operating instructions should be read thoroughly before attempting to operate this audio system

Retain instructions - The operating instructions should be retained for future reference.

Heed warning - All warnings on the appliance and in the operating instructions should be adhered to.

Follow instructions - All operating and use in the operating instructions should be followed.

Do not expose the speakers to liquid or solvent.

Do not expose the speaker system to temperature or humidity extremes, direct sunlight, excessive dust, or vibrations.

Place the speaker system on a stable, level surface. Do not drop, apply excessive force to the controls, or put heavy objects on top of

If cleaning is required, use a soft dry cloth. If necessary, use a damp cloth without any solvents.

In order to protect the speaker system, avoid microphone feedback, continuous output from electronic musical instruments, or distorted output from any signal source.

Do not place the speakers close to fluorescent light sources or neon light fixtures.

Although the speakers are magnetically shielded, keep magnetic storage media (disks and tapes) at least four inches from the speaker system in order to avoid data loss.

## Federal Communications Commission (FCC) Statement

#### 15.21

You are cautioned that changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

## 15.105(b)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following

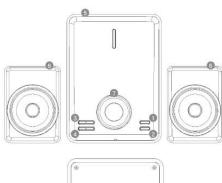

- -Reorient or relocate the receiving antenna.
- -Increase the separation between the equipment and receiver.
- -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- -Consult the dealer or an experienced radio/TV technician for help.

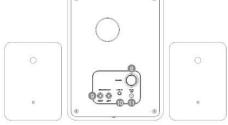

## Operation is subject to the following two conditions:

- 1) this device may not cause interference and
- 2) this device must accept any interference, including interference that may cause undesired operation of the device.

# FCC RF Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other

- 1. Pairing Subwoofer
- 9 Speaker out
- 2. Line in 6. Satelite speakers 10 Line in
- Woofer cone 11 AC in
- 4. Bass 8. Power

## **OPERATING INSTRUCTIONS**

1 Connect power adapter cable into "AC IN" position marked on rear of subwoofer and plug power adapter into power strip

2 Plug left and right satellites cables into 'Speaker Out" positions accordingly

3 Connect audio cable (if any) to the "Line In"

4 Make sure all the cables are well-connect and press "Power' button

5 Once the power is on, a blue light will be on inside the woofer cone in the subwoofer

Blue light

The blue light tube will be flashing once the power is on and it is in the "Pairing Mode" which is ready for pairing with other Bluetooth (with A2DP) devices

Activate your mobile handset's Bluetooth function to start pairing with the speaker system. Please refer to the mobile handset's user guide for pairing details.

7 To switch the mode from "Pairing mode" to 'Line In" mode, simply press the "LINE IN" button in the front of the subwoofer. Then, the blue light tube will be stop flashing

8 To adjust the volume and the bass, simply press the "+" or "-" buttons in the front of the subwoofer
